From harm to heuristic

Every rule answers a specific harm card from Activity 1. One rule per sheet.

THE RULE

Twelve words or fewer. Imperative — something that could sit in a checklist.

ANSWERS HARM CARD №

WHEN IN THE LIFECYCLE

- ☐ Recruitment
- ☐ Consent
- ☐ Data collection
- ☐ Analysis
- ☐ Dissemination
- ☐ Aftercare

WHO IS RESPONSIBLE

Tick a role from the persona deck. Not “researchers”.

- ☐ Primary researcher
- ☐ Research supervisor
- ☐ Ethics and data protection
- ☐ Safeguarding lead
- ☐ Research participant
- ☐ Parent or carer

WHAT IT COSTS

“More time” or “more money” alone is not an acceptable answer. Name the real trade.

FAILURE SIGNAL

How would you know, from outside, that this was not happening?

OPEN QUESTION

What could the pair not resolve?

REVIEWER 2 ROUND

Passed one seat left. The reader argues against it. Sharpen or park — nothing else.

- ☐ Sharpened
- ☐ Parked

The strongest objection:

What we could not settle

A parked rule is an output, not a failure. Record it, and record why it stalled.

PARKED RULES AND OPEN QUESTIONS

One per line. Note the harm card it came from, and what the disagreement was about.

WHO SHOULD DECIDE THIS, AND WHEN

Photograph every sheet before it leaves the room.
